## This Year's Fair Voted "Biggest, Best Ever Held"

Lake County Fair Here Is  
Viewed by 6,000 During  
Three Days

There were 6,000 paid admissions to the eighteenth annual Lake County fair here Friday, Saturday and Sunday, according to E. E. Eshbury of Gurnee, general secretary of the fair. There were 3,800 paid admissions last year. More than 3,000 attended Saturday afternoon and evening.

With regard to its program and exhibits, this year's fair was also considered to be outstanding.

As in previous years the horse show, staged Friday and Saturday evenings, with final Sunday afternoon, was one of the biggest drawing cards. Sixty-one horses, representing 39 of the finest stables in Lake, Cook and McHenry counties in Illinois, and Kenosha, Racine and Milwaukee counties in Wisconsin, took part in the various horse show features.

Dr. L. E. Bovik, Waukegan, served as announcer, with Joseph Jasper, Wadsworth, and Charles Houston, Libertyville, as judges. On the committee were Eshbury, Jack Connely and William Chandler.

Miss Marion Connely, of Gurnee, who thrilled patrons of the fair with her daring "Roman ride" exhibition atop Jedra and Kahtan, beautiful Arabian horses from the R. Douglas Stuart stables, also won one of the major horsemanship events, with Kahtan, Lynn and Lyman Miller, Antioch, were winners in the children's pony class.

A special thrill for those who attended the fair was provided by the aerial show staged by Jim Daring.

The Lake County chorus made its last official appearance of the season Saturday evening when it sang over a loudspeaker system in front of the grandstand.

In the exhibits of school work, Warren Township took first place for high schools, Antioch Grade for schools of more than one room, and Cedar Lake and Russell first and second, respectively, for one-room schools.

## "Be Careful Coming Home Labor Day," Motor Club Warns

Forty persons may lose their lives on Illinois and Indiana highways during the Labor day week-end, says Charles M. Hayes, president of the Chicago Motor club, basing his forecast upon the Labor day accident reports of the last three years and the Fourth of July totals of this year.

Between twenty-five and thirty may be killed in Illinois, and from ten to fifteen in Indiana. In both states hundreds will suffer injuries.

In almost every case traffic accidents resulting in death and serious injury during a long week-end have been concentrated on the afternoon and evening of the last day. The club president points out that this situation develops from the lack of appreciation for the fatigue generated by an active week-end, especially among office workers not used to considerable physical exercise.

"Too many times," he says, "these tired motorists leave their chosen vacation spots at a late hour on the last day. They are tired, encounter heavy traffic, and try to get home too quickly for the general traffic conditions. The resulting speed and carelessness lead to serious accidents. Even those who are careful are too often the victims, because of the shortcomings of the other driver."

Highway accidents throughout the nation are showing an increase. State traffic officials are looking forward to the last big week-end with a definite forewarning. Highway police officials are mustering all available manpower in an effort to cope with the situation.

## Jim Londos to Meet Martinez

**The "Gorgeous Greek" Will  
Wrestle Big Spaniard at  
Grayslake Friday**

No grappling match in years has created as much interest among mat addicts as this week's bout, Friday, August 29, featuring the Gorgeous Greek, Jim Londos of world wide fame against Ignacio Martinez, sensational Spaniard, at Peg's arena in Grayslake. Martinez is burning up the local mats with his sizzling pace and his last two tries at Peg's he flattened Jim McMillen and the Hindu, Ranjo Singh. Londos who claims the International mat title, is on a cross country tour, meeting all contenders, in an effort to clarify the heavyweight title situation. Since returning from a world tour several months ago, he has been appearing in various cities in behalf of the Greek relief fund, and has been successful in raising thousands of dollars for that worthy cause. Critics who have seen him perform are unanimous in their plaudits, saying that he has lost none of his cunning, and still maintains the form that placed him on top of the mat heap through the thirties, when he was recognized as undisputed heavyweight champion of the world. In those days the name of Londos was magic at the box office and attendance records were set that will stand. The largest gate was at Wrigley Field, Chicago, where \$10,000 was paid by the fans to see the Greek defeat Strangler Lewis. The way reservations have been pouring in for Friday night's extravaganza, it appears that Londos has lost none of his customer appeal. The initial appearance of Londos in the local spot is causing the promoter to build additional seating capacity.

**Sought Bout for Year**

Martinez is the surprise athlete of the year and it is strange that he should meet Londos in the most unexpected place of Grayslake when he has been seeking this same match for almost a year all over the western hemisphere. The big Spaniard, who weighs 230 pounds is shooting for the world mat title and his success in this country has been phenomenal.

The supporting matches will be made up of the best names to be found in these parts and will feature among others, the giant Hippo Wiggin, 420 pound youngster who defeated Von Schaeft last week in 10 minutes, Gorilla Grubmeyer, Rudy Kay, Nick Elich, and Bobby Bruns.

Despite this unusual card there will be no advance in prices, Manager Peg Behning states.

## Copper Roof Is Put on Methodist Church Steeple

Workmen were busy this week putting a copper roof on the steeple of the Antioch Methodist church. The work is being done under the charge of the Burlington Roofing company, which recently completed similar jobs at Dixon and at Harvard, Ill. From here, the men will go to Dubuque, Ia., for another job along the same line.

## New Duties Prompt Stearns' Retirement as Local Fire Chief

### Work as Deputy State Fire Marshal Calls Him to Other Counties

His new duties as a deputy state fire marshal may make necessary the retirement of James E. Stearns as chief of the Antioch fire department, a position he has filled with great credit for more than 16 years, it has been revealed this week.

Stearns has been assigned to investigation and instruction work in Lake, McHenry, Boone, DuPage, Kane and DeKalb counties.

Although obliged to give up the responsibilities of chief, Stearns will continue to be a member of the department, probably returning to the status of engineer which he held before his appointment in 1927. He will continue as a member of the village board and as Republican committeeman for Precinct 2.

He will probably present his petition to be relieved of the duties of chief at a meeting of the fire department Tuesday evening, Sept. 9. His successor will be chosen by members of the fire department, subject to the approval of the village board.

Prominently mentioned for the post have been Herman Rosing, assistant fire chief and first lieutenant of the rescue squad; Louis Van Patten, a veteran in the department; Cletus Vos, Walter L. Scott, Herman Holbek, captain of the rescue squad, and James McMillen.

During Stearns' term of office the Antioch fire department, which serves a large circle of adjacent territory as well as the village, has been developed into one of the most efficient and best equipped volunteer departments in this part of the state.

### Jalopy Race Finals Will Be Conducted at Wauconda Labor Day

A twenty-five lap final event with the leading jalopy drivers in this part of the state competing for prize money and the championship trophy will feature the Labor Day racing program on the Griswold Bowl Speedway, located four miles west of Wauconda off Route 176 on McHenry road.

Four Antioch youths, Robert Bens, Calvin Hardin, Harold Gaston and Robert Gaston are "conditioning" a jalopy they hope to be able to enter in the races.

In addition to the big race of the afternoon, there will be several elimination heats, a special reverse event and a grudge race precipitated by a ruling of track officials two weeks ago. The judges disqualified one of the leading drivers for violating racing rules when he appeared to crowd one of the jalopies off the oval in the feature event.

Two of the speedsters involved in the incident have agreed to settle the dispute by meeting in a special heat. This affair should present speed enthusiasts with plenty of thrills, since each jeep pusher will be out there fighting for more than prize money or its own solution to an acute problem.

There is no necessity, they contend,

for the federal government to initiate any camouflaged steps that will wipe out in the future the dairy industry that has been so vital to the north, which has rugged terrain and conditions that make it unsatisfactory for any great agricultural purposes except dairying.

It is the feeling of those sponsoring the conference—prompted by meetings of agricultural leaders held during the past several weeks in Chicago, Madison, and other cities throughout the area—that any move on the part of the federal government that will tend to discredit the butter manufacturing industry, eventually will wipe out the farmers' annual average income of some \$1,165 from the dairy industry.

Ralph E. Ammon, director of the Wisconsin department of agriculture, who has been leading the fight in the dairy states against the federal oleomargarine regulations to be placed in effect Sept. 6, will be the principal speaker.

Governor of Minnesota, John V. O'Connell, Frank Roblin, Conrad Walters and Thomas Runyard, will be present, as well as the U. S. senators and congressmen from the four states.

### Dynamite Hurls Piece of Stump Through House Roof

While workmen were blasting on the stump of a large tree in Woodcrest subdivision at Channel lake Tuesday morning, preparatory to excavating the cellar for a new house, a fragment of the stump was hurled through the roof of a house 200 feet away. The piece of wood, estimated to weigh about 100 pounds, also broke through a wall between two of the rooms in the house.

The building is owned by James D. Ryan, but was unoccupied at the time.

Another piece of the stump, weighing about 200 pounds, was hurled out into the lake, landing near a boat, Steve Ryzen, occupant of the boat, towed the wood to shore.

Antioch firemen and rescue squad members, kept "on the jump" by innumerable calls all summer, enjoyed a vacation last week. There were no calls for either group, although both "stood by" during the Lake County fair last week-end on the high school grounds, and the rescue squad's big benefit dance at the Roller Rink tent, corner of Routes 173 and 59.

Workmen were busy this week putting a copper roof on the steeple of the Antioch Methodist church. The work is being done under the charge of the Burlington Roofing company, which recently completed similar jobs at Dixon and at Harvard, Ill. From here, the men will go to Dubuque, Ia., for another job along the same line.

#### Rescue Squad Pleased by Community's Response at Benefit Event

LaCrosse, Wis. (Special)—Farmers throughout the middle west, angered and thoroughly aroused over the federal government's order promoting the sale of oleomargarine to the detriment of the dairy industry, will assemble here by the thousands on Sunday, Aug. 31, for a mass meeting to adopt and forward to Washington strong protests. The meeting, to be called at 1:30 p. m., will be at the Inter-State Fair grounds.

They will demand, in what agricultural leaders of Illinois, Wisconsin, Minnesota and Iowa expect to be only the start of a fight for the protection of human rights in a period of drastic national emergency, that the dairy industry be permitted to operate as it has in the past, without government interference, in an effort to fathom out its own solution to an acute problem.

## One Cup of Water . . .

It has been said that one cup of water will put out any fire, if it's applied at the right time. This year's wave of defense strikes, culminating in the use of armed troops to put struck aviation plant back to work, inevitably recalls the old proverb.

The origin of the present trouble, which threatens the national security, are all too painfully apparent when the record of the past few years is reviewed.

A cup of water? Responsible authorities might have put out the fire back in 1937 when the "sitdown" strikes made their first appearance. There was a clear-cut violation of property rights, allowed to run its damaging and illegal course until public condemnation brought about the abandonment of the technique.

A cup of water? It could have been applied in the case of the one-sided Wagner Labor Relations Act, which was based on the theory that management was wrong in all industrial disputes. As far back as 1938, survey figures show, 70 per cent of the public wanted this one-legged legislation revised. But right up to the present time, all suggested remedial amendments to the Act have been sidetracked by administration adherents.

Through these and many other cases of neglect, the conflagration has been permitted to spread. Now Walter D. Fuller, President of the National Association of Manufacturers, suggests three fundamental remedies:

1. A revamping of our national labor policy, including the Wagner Act, to end mass picketing and other forms of intimidation so as to guarantee both management and labor the right to work.

2. Backing up this policy with local and state law enforcement, instead of "dramatizing" everything into a national issue.

3. Assuring employees the right to vote by secret ballot on strike issues. (A recent poll showed 78 per cent of union members themselves in favor of secret balloting.)

Such a constructive program could go far towards reducing the present difficulties to a minimum. The cup of water applied at an earlier time might have prevented today's fires; and the fact remains that now, when defense needs make a solution imperative, the same type of treatment is still best!

## Built by Private Credit

This country was built by private credit. It has always been maintained by private credit. That is one

great difference between a democratic and a totalitarian state.

The money that built our vast industries—utilities, railroads, steel companies, oil concerns and the rest—came out of private pocketbooks, individual and collective. Government was never the dominant factor. In later years, government has expanded greatly in the role of "financier." Even so, private credit remains the bulwark of our social and economic system—the free enterprise system.

Let us remember that now. We will have won a hollow victory indeed if, when the wars are over and the defense drive has been consummated, we find ourselves with government as a financial dictator—the provider and controller of all credits. There is but one way that can be avoided—and that way is to depend upon private credit to the greatest possible extent, and to call upon government credit only when there is no other course open. Such institutions as the banks have declared their willingness to do the biggest financing job in their history, in the interest of defense. Let them do it.

## A Real Threat

Behind the scenes in Washington today a titanic struggle is under way. The battle lines are drawn. On one side are those who would change our form of society. On the other side are business men who wish to organize the country's industrial machine for the greatest war aid, but who, after the war effort is over, wish to see a return to individual ownership and operation of industry. They fear and rightly, that many moves in the war effort will result in a more or less permanent collectivist or socialistic framework of American society.

They fear deeply the possible destruction of the American way of life. They feel that it is a real threat, because some of our leaders, by their own admission, have lost faith in America before the present emergency arose, and are today in the Nation's distress, working for a new order of their own—an America of nationalized industry and agriculture, a regimented way of life.

The interventionists are not exactly consistent. They say in one breath the Nazis are destroying all the munitions we send to England and in the next that Hitler is about to start here with boatloads of men and munitions and can make the trip easily.

Let's hope the Nazi dictatorship and the Fascist dictatorship in Europe do not speed the setting up of some sort of dictatorship in America.

A lot of people in this country, who thought that they started on the road to Utopia eight years ago, now realize that it was a mirage and something akin to the end of the rainbow.

The President's method of trying to solve this administrative chaos is to pile new agencies and assistants on top of the old, without removing the debris.

## Grayslake Girl to Become Bride of Oliver Hunt Sept. 3

A reception in the American Legion hall at Grayslake will follow the marriage of Miss Evelyn Haas, daughter of Mr. and Mrs. Leonard Haas, Grayslake, and Oliver Hunt, son of Mr. and Mrs. Frank J. Hunt, Antioch, Wednesday afternoon, Sept. 3, at 3 o'clock in the rectory of St. Peter's church.

Miss Belle Burris of Gurnee and Oliver Hunt will act as maid of honor and best man.

After the reception the young people plan to leave on a honeymoon trip to northern Wisconsin. They plan to make their home at 428 Orchard street.

The bridegroom-to-be, who is a graduate of Antioch Township High-school, has been associated with his father and brother in the operation of Hunt's Service station at the corner of Routes 59 and 173. The bride is a graduate of Warren Township High-school.

### METHODIST CHOIR TO RESUME REHEARSALS

All members of the adult choir of the Antioch Methodist church are being requested to be present for a rehearsal Wednesday evening, Sept. 3, at 7:30 o'clock in the church. Mrs. C. M. Carlson is the director. Rehearsals were suspended by the choir for a few weeks during the summer.

### MRS. HUNTER ENTERTAINS O. E. S. OFFICERS CLUB

CHRISTIAN SCIENCE CHURCHES

"Mind" was the subject of the

Lesson-Sermon in all Churches of

Christ, Scientist, on Sunday, August

23.

The Golden Text was, "Who hath

known the mind of the Lord, that

he may instruct him?" (I Corin-

thians 2:16).

Among the citations which com-

prised the Lesson-Sermon was the

following from the Bible: "O the

depth of the riches both of the wis-

dom and knowledge of God! how

unsearchable are his judgments, and

his ways past finding out!" For

who hath known the mind of the

Lord? or who hath been his coun-

seller?" For of him, and through

him, and to him are all things; to

whom be glory for ever" (Romans

11:36, 34, 36).

The Lesson-Sermon also included

the following passages from the

Christian Science textbook, "Sci-

ence and Health with Key to the

Sermonettes," by Mary Baker Eddy:

"Spirit is divine Principle; and di-

vine Principle is Love, and Love is

Mind, and Mind is not both good

and bad; for God is Mind; therefore

there is in reality one Mind only;

because there is one God" (p. 330).

Antioch will join with the nation in paying tribute to the dignity of labor on Monday, September 1. In addition to the significance of the day, the holiday is one of the outstanding ones in the lakes region — the climax of summer's pleasure, and the beginning of autumn enjoyment in the great outdoors lakes "playground" area.

## Yesterdays

47 YEARS AGO  
In the Antioch News  
August 30, 1894  
Evangelist Sunday (ex ball tosser) and family have been spending some time at resorts in the Channel Lake vicinity.

When Chris Sorrenson and Frank Peterson were returning from the lakes, about 1 o'clock Saturday morning, they discovered fire in the new jewelry store of C. H. Barber on Main street. A bucket brigade aided them in quenching the fire.

The pleasant home of Mr. and Mrs. Robert Seltzer, at Grass Lake, was the scene of gay festivities on Wednesday evening, Aug. 29, the occasion being the fifth anniversary of their wedding day.

Work on the Woodmen's hall at Wilmot is progressing rapidly.

August 30, 1906

Woman's dress has become extravagant and immodest, declares a New York writer, who says, "The woman who might have dared to walk upper Broadway of a summer afternoon, ten years ago, wearing a 1906 waist so thin and transparent that a lace curtain would be opaque beside it, would have excited the scorn and disgust of her sex."

The two weeks' outing of the twenty choir-boys of St. Martin's Episcopal church of Austin ended abruptly when Mrs. G. L. Gerl, proprietor of the Lake Shore house at Crystal Lake, ordered them out of her house because of their pranks. According to Mrs. Gerl the boys threw apples through the windows of the hotel, disfigured the rooms of the hotel by throwing decayed fruit against them, tied up all the bedding they could find into hard knots, removed the furniture from one room to another, and carried two calves to the upper floors of the hotel and turned the animals loose, creating a panic among the guests.

Large forces of men are toiling day and night to complete the new Fox river dam at McHenry.

22 YEARS AGO

August 28, 1919  
Work is to begin this week on the remodeling of St. Ignatius' church. This old building, at one time belonging to the Campbells, and built in 1862, was purchased by the Bishop of Chicago for an Episcopal church four years ago. Since the present congregation has occupied the building much money has been spent in improving the interior. The old tower is to be torn down and a twelve-foot-square tower is to be built out in front of the entrance. Although this old church has stood for more than half a century, it is still in a most excellent state of repair.

Sealed bids will be received by officials of the town of Antioch for resurfacing the Frankville-Millburn road.

J. N. Pacific has purchased of Mr. Alice Irvine, five-store building on Main street, which was formerly occupied by A. M. Hildebrandt as a flour store.

Howard E. Lyon, of Chicago, Ill., and Miss Dora Ellen Van Duzer of Salem were quietly married last Wednesday at the parsonage of the Park Avenue Methodist Church, Kenosha, the Rev. Dr. W. W. Taylor officiating. A military truck goes down, loaded with coal by the soldiers, up comes the bridegroom, who is returning from last week's service. His present is in France.

At the Majestic theatre, Lillian Gish in "D. W. Griffith's Ben-Hur" and Henry Stude in "Daddy Long Legs" opened in the Ward in "The Japanese Nightingale"; "First Love" with Irene Castle; "The Divorcee" with Elizabeth Barrymore.

The Antioch Grade school building is being extensively repaired and remodeled.

## MILLBURN

The Millburn Maiden's 4-H club exhibited their projects at the Lake County fair.

Miss Phyllis McClure of Gurnee was a week-end guest at the home of Beryl Bonner.

Mr. and Mrs. Virgil Lehman and sons, Delmer, Dwight, Donald and Everett of West Lebanon, Ind., and Mr. and Mrs. Earl Turnbaugh and family of Libertyville were dinner guests at the Harley Clark home Sunday.

Jim Bonner, who has spent the past six weeks at the home of his uncle, Gordon Bonner, returned to his home at Kansaville, Wis., Wednesday.

The Rev. Philip Wildenhaus of Atlanta, Georgia, had charge of the morning services at Millburn church Sunday morning.

Miss Margaret Denman returned home Friday after spending a week in camp at Squaw Lake, Wis.

Miss Marian Edwards spent Friday afternoon in Chicago.

Mr. and Mrs. J. Kalaf and Miss Gertrude Krumrey of Libertyville were dinner guests at the Frank Edwards home Sunday.

Mrs. Martin Edwards returned home Friday after spending several days with her daughter, Mrs. John Dickey in Forest Park.

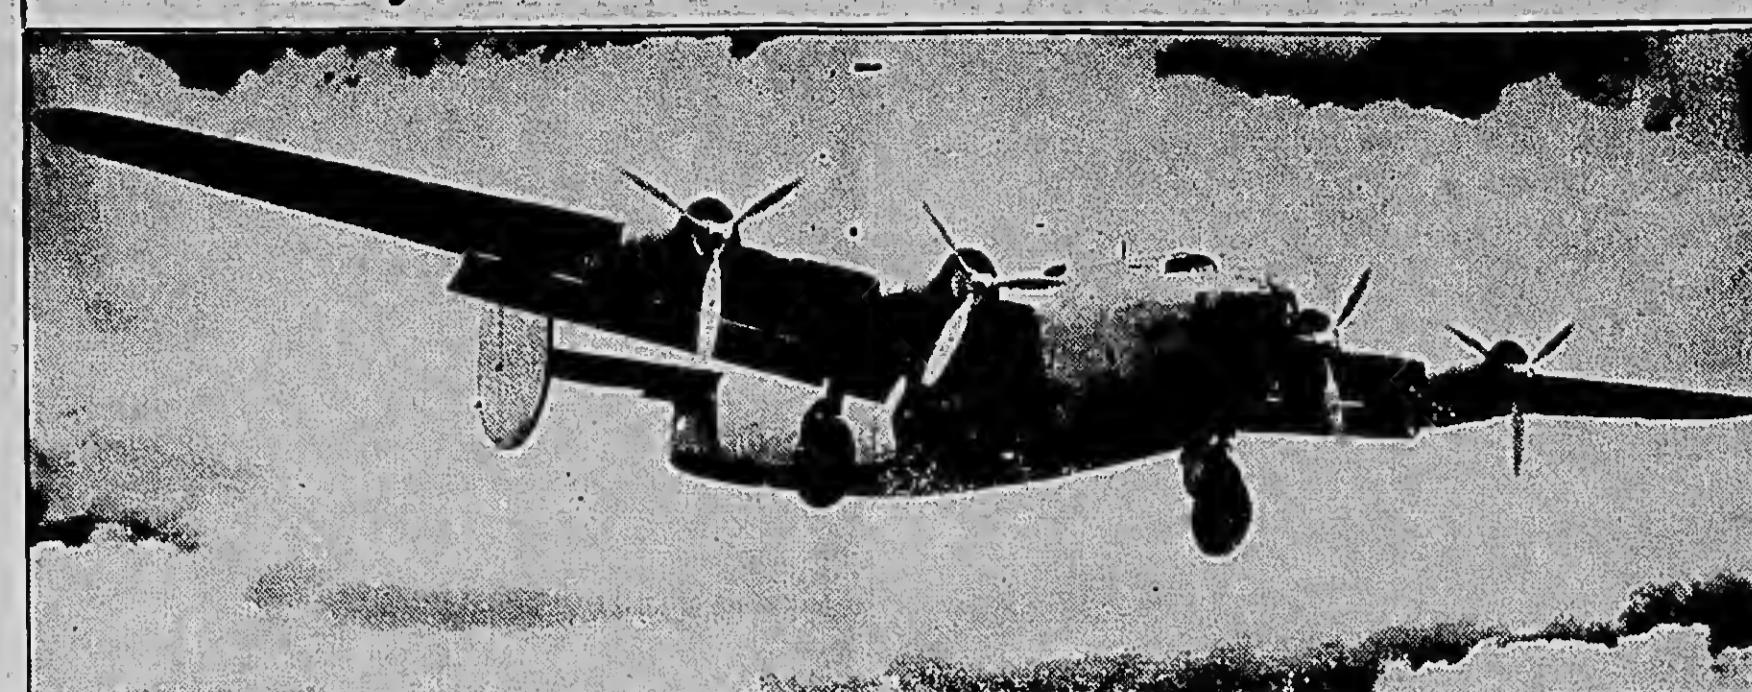

Miss Ruth Gillings spent Thursday with her sister, Mrs. Frazier Hollenbeck, who is visiting at the O. L. Hollenbeck home.

DEARBORN, Mich.—This big aerial dreadnaught coming out of the clouds for a landing at Ford Airport is the new Consolidated B-24. It is regarded by the U.S. Army as the world's most formidable bomber. The Ford Motor Company, under government contract to produce sub-assemblies and parts for five complete B-24 bombers a day, is erecting an \$18,000,000 plant for the job, 25 miles from here.

Henry Ford examined this huge bomber when it visited Dearborn recently. It weighs 56,000 pounds loaded and carries four tons of bombs at a speed of 300 miles an hour. The ship has a cruising range of 3,000 miles.

The close-up photo (right) of one of the plane's main landing struts indicates its great size. This gear which folds into the wing is one of the intricate sub-assembly projects Ford will handle.

Detachable, Automatic

## GAS HOUSE-HEATER

Amazing new unit provides uniform automatic heat...can be used in hot air furnace or hot water boiler—operates on special low gas-heating rate.

With a detachable, automatic Gas House-Heater your Fall (and Spring!) furnace worries are over. For up to the time when real cold winter weather sets in, this amazing unit will maintain uniform temperatures automatically. You simply place the heater in the door of your furnace—set the thermostat to the temperature you want—then forget it. When the weather gets chilly, the heater operates automatically as long as heat is needed. And when the weather gets warm again—the heater shuts off.

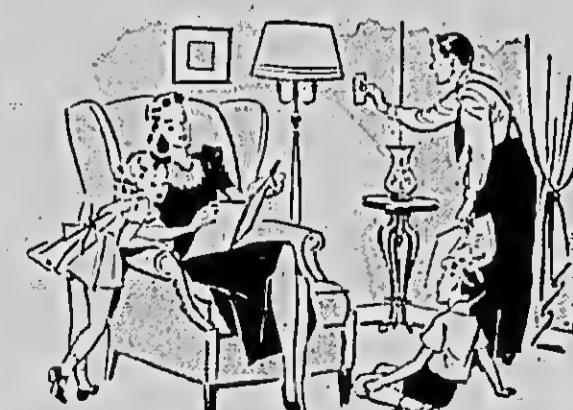

The entire unit weighs less than 14 pounds. You can attach or remove it with ease...no nuts, bolts or wrenches required—no pipes to disconnect. It does not interfere with regular winter furnace operation, nor does it require any alterations to furnace, grates or fire box.

Hundreds of satisfied users have said goodbye to fall furnace worries. Why not you? Write, phone or come in for full particulars—now.

Only \$49.50
